Sorry for the delay, but I have the discovery packet ready. All I need is the address to send it to. Thanks.

Sure, sorry about that. I usually include that. It's [REDACTED] submitted by Norwood PD on 7/16, analyzed on 8/09.

No problem, but I am going to need the lab number(s) for the case. I've looked up the defendants and think that the correct number is [REDACTED] (328 tablets), and according to the database the submission is still in our drug safe, but if there is any way you can check to make sure that the number is correct, that would be great.

My name is adam lally and I am an ada in Norfolk county. I have been assigned the case involving the above three named defendants for which you performed the chemical analysis of the substances in question. I was writing to inquire if you could send to me your lab notes/packet and a copy of your c.v., at your earliest convenience, no rush at all. Thanks, adam
